Communal Gardening and Grounds Maintenance - What to Expect

General Specification:

Mowing/strimming of lawn areas (April-October)

Grass cuttings/arising to be collected

Edging of lawn areas and kerbs as required

All beds to have weed growth removed as required

Spraying with suitable weed treatment as required

Cutting and pruning of shrubs/plants according to season, species and location

Hedges to be cut and maintained upon growth according to season and species – in most cases this will be carried out twice yearly

Footpaths/walkways to be kept clear

Sweeping/blowing of debris on pathways and litter picking

Fallen leaves to be collected in the autumn and winter months

The frequency of visits may alter due to inclement weather conditions and not all jobs listed in the specification will be carried out on each visit.

Only where summer visits are stated as 12 or more will visits be fortnightly between April and October. Any winter visits stated will be done outside of this timeframe. Where there is grass at a scheme, grass cutting will be done on every summer visit.

All schemes will receive some winter visits due to the nature of plant species and terrain.

Are you interested in monitoring the gardening service on your scheme?

If you are call us now on 0300 1234 009 for further details.

Scheme Name:	Number of Visits Per Year:
<i>For ease of reference, an * indicates that summer visits will be fortnightly between April and October. However, please bear in mind that this frequency may alter due to inclement weather conditions and all timescales are indicative.</i>
