

Register of Interest

In the majority of cases we take nominations from the local council when one of our properties becomes available. It is therefore important that you contact your local council and go on their waiting list. Please also note that if you are interested in a property on one of our new developments we take 100% nominations from the local authority for all first lets.

The Association does not hold a waiting list however we do keep a register of interest to enable us to record details of people who are interested in our properties and relevant information should we need to contact you.
