Angela's Meadow Shipston on Stour Warwickshire

Completed

September 2010

Developer

Wates Living Space

The Story

Angela's Meadow was named after a much loved member of the local community with the scheme taking inspiration from the village itself. As part of the development we were able to provide for the community a specially equipped play area for our younger residents to enjoy in this beautiful spot.

Among the residents are Tony and Heidi and their three children Owen, Poppy and Charlie. Heidi was brought up in Shipston and was thrilled to return to her home town and be living local to her family again.

"It's great, it really feels like coming home. We're so happy here, I think it will be a life-time home for us"

Mum of three Heidi
